FIAT AND VILEBREQUIN RETURN WITH THE NEW TOPOLINO VILEBREQUIN 2ND EDITION:

Drive on the Sunny Side of Life with the All-New Body Style

FIAT and Vilebrequin renew their iconic partnership with the launch of the new Topolino Vilebrequin 2nd Edition, a fresh interpretation of Riviera spirit that introduces a major product innovation: the debut of Topolino's new body style, a closed version featuring an opening softtop roof. A new silhouette, with the same unmistakable Mediterranean soul. Designed for those who embrace summer as a state of mind, the new edition captures the essence of carefree coastal living—where style, lightness, and spontaneity come together in perfect harmony.

The renewed collaboration with Vilebrequin, the luxury brand synonymous with refined beachwear and elegance, continues to celebrate a shared vision of design, craftsmanship, and joyful living. This second edition builds on the success of the original Collector's Edition while opening a new chapter for the Topolino range.

Bringing Riviera vibe in the city

At the heart of the Topolino Vilebrequin 2nd Edition is its all-new configuration: a closed body enriched by an opening softtop roof, offering an enhanced driving experience that blends protection and openness—perfectly aligned with the rhythm of summer days.

Produced in a very limited run of 200 units in Italy and France, the exterior design expresses a refined nautical inspiration through a dedicated bi-color paint, enhanced by signature Vilebrequin turtle logo on driver's door, that reinforces its distinctive personality. The chrome rear carrier further enhances the Dolcevitita feel.

Holiday elegance comes on board

Inside, the Mediterranean story continues with a bright and sophisticated atmosphere. The cabin features white seats with blue Vilebrequin logos and stitching, paired with a Dolcevita Box wrapped in Vilebrequin's iconic pattern and completed by a white belt. Dedicated nautical floor mats add an additional layer of detail, echoing the world of yachting and seaside elegance.

More than just a design statement, the Topolino Vilebrequin 2nd Edition embodies a lifestyle—one that invites drivers to slow down, enjoy the moment, and rediscover the pleasure of electric mobility through emotion and beauty. With this new edition, FIAT not only strengthens its bond with Vilebrequin but also expands the Topolino family, reinforcing its role as a pioneer in redefining micro-mobility through style, innovation, and a deeply human approach to sustainability.

To celebrate the occasion, Vilebrequin has also designed an exclusive t-shirt and swimsuit featuring the Topolino silhouette, allowing you to embrace this summer style even outside the car.
